

When an Emergency Strikes...

WILL YOU BE READY TO SAVE A LIFE?

TRAINED.

EMPOWERED.

PREPARED.

Businesses not only provide services to countless customers, but also **have to care for their employees**. Given the number of people present and the considerable amount of time and activity spent at work, **the risk of someone suffering cardiac arrest at your facility is very real.**

Sudden Cardiac Arrest (SCA) is unpredictable. It can happen anywhere, at any time, to anyone. Quick response and early use of an AED can make the difference between life and death. By implementing a comprehensive AED program, you will be creating a safer environment for your employees, visitors and everyone in and around your facility.

Durable, cost-effective, low-maintenance, and easy-to-use **Defibtech AEDs** and associated CPR and AED trainings are perfectly suited for the unique needs of the business environment. **Now there is something you can do to improve the odds dramatically for your customers and employees with a solution that is easy to use and inexpensive to buy.**

First Aid to Save a Life Pakistan can supply you Defibtech's Lifeline AED and training which can give you the vital knowledge and skills you'll need to respond to a life-threatening situation with confidence, covering below topics.

- Airway – Head-Tilt, Chin-Lift
- Protecting the Airway – Recovery Position
- Circulation – Chest Compressions
- Adult, Child and Infant CPR
- Care, prepare and Place Pads
- Clearing the Airway – Log Roll
- Breathing – Rescue Ventilations
- Initial Assessment
- Sudden Cardiac Arrest – Using an AED
- Basic AED Operation

You'll also receive a **participant's workbook** and **pocket size wallet card** that include images and easy-to-read text that will walk you step by step through a variety of lifesaving skills. The wallet card will also serve as an excellent **refresher and reference tool** after training is complete.

Contact us for an **AED Implementation Program** for your organization.
